Dear Jeffrey,

Re: New house construction at [REDACTED]

I would personally like to thank you and everyone at B and M Johnson for helping to make this new build project such a success. We have been informed by the Building Control Officer at Malvern Hills District Council that we are to be put forward and nominated for an award of building excellence.

The kitchen and bathrooms look splendid, and I wish to thank you for your help at the design stage and for the excellent job of installing the kitchen and utility. You have been both professional and responsive at all times, and I would have no hesitation in recommending you.

We hope to take on other building projects and I would hope to work with you again.

Many thanks

Yours sincerely,

Cheryl Booton

Yours faithfully
